

Railroad Topics

John Whelan, one of the surveying party which has been making extensive surveys about Denning, returned to Santa Fe from El Paso.

C. P. Jones, superintendent of the Santa Fe Central stock yards at the capital city, was a passenger for El Paso, whither he went on railroad stock business.

J. D. Bucklew, third vice president of the International Association of Machinists, was in El Paso, and Sunday afternoon addressed a mass meeting at the El Paso opera house.

If the present plans of the Chicago, Milwaukee & St. Paul railroad are carried to completion, that company will soon have its own tracks between St. Paul and Duluth. It is stated on good authority that the Milwaukee has secured the right of way between St. Paul and the head of the lakes.

A New York dispatch says: Republican politicians received with much satisfaction a report that George J. Gould is about to enter politics and that he will try at the forthcoming election for a seat in the house of representatives from the district in New Jersey which embraces Lakewood, where he has his country seat.

Senator W. H. Andrews, president of the Santa Fe Central railway, and General Manager W. S. Hopewell, of the New Mexico Fuel and Iron company, left for Denver on railroad matters. Andrews will then proceed to Chicago and Pittsburgh, Pa. He will be in the latter city for the next three or four weeks.

Maj. R. E. Hooper, general passenger and ticket agent of the Rio Grande at Denver, celebrated his sixty-third birthday Monday. The employees of the Denver city ticket office learned of the fact, and as a token of their appreciation of his many worthy traits presented him with a handsome mahogany desk. Today the popular agent will celebrate the twentieth anniversary of his appointment as general passenger agent of the road.

Mothers lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Strawberry in the house. Nature's specific for bowel complaints of every sort.

IMPRISONED ON THE SUMMIT.

Queer Plight of Two Employees of the Pike's Peak Railway.

About the 1st of this month the tracks of the Manitou & Pike's Peak railway, running to the summit of Pike's Peak, were cleared and tourist trains were operated. A sudden fall of snow occurred soon afterward, covering the track five to twenty-five feet deep in places, and two employees of the railway company were imprisoned in the summit house two weeks before they could be rescued. Fortunately, the house was well stocked with provisions, and the telephone had been put in working order, so that they could communicate with the officials in Manitou.

"Time's safe to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen."

OTHER UNIONS MUST STRIKE.

Bucklew Says Machinists Have Small Chance Without Co-Operation.

The Emporia (Kansas) Gazette says: Mr. Bucklew is making a tour, stopping at the division points to see how the land lies and organizing his forces for a hard fight. The machinists will not indulge in any underhanded means to beat the company. It will be a straight, open fight. At present both the company and the strikers claim to be gaining ground. Mr. Bucklew is pronounced in stating that his plan is to get the other railroad unions to join in the strike. He says that unless they do there is not much show for the machinists to win out, although at present they are making a good showing. The loss of business to the Santa Fe is apparent all along the line.

Only one remedy in the world that will at once stop itchiness of the skin in any part of the body. Doan's Ointment. At any drug store, 50 cents.

Railroads Report Business as Improving.—The opening of May brought encouraging reports as to earnings from all western roads, but indications are that the month has closed with a healthy showing for this period of the year.

Reports for the third week in the month, as returned by the Rio Grande, show a small decrease as compared with previous weeks since the opening of the year.

The Santa Fe is the only western line to show good earnings. This, despite labor troubles, floods, etc. It is estimated that the gross earnings for May will show an increase of over \$800,000, as compared with the corresponding period of last year.

Reports to the effect that the system contemplates issuing a new batch of securities is vigorously denied by those in authority, both at headquarters and locally.

Can't be perfect health with-out pure blood. Bucklew Blood Bitters makes pure blood. Tunes and invigorates the whole system.

INCREASE OF \$800,000.

May Report of Santa Fe Promises to Be a Wonder.

Chicago, May 2.—It is estimated that May earnings of the Santa Fe will show an increase in gross of over \$800,000, as compared with those of the corresponding month last year. This large increase will be partly due to the fact that last year's earnings for the month were materially cut down by the serious interruption of

traffic which was caused by the great and widespread floods which occurred in various sections of the Santa Fe territory. The increase will be very acceptable in view of the great decrease in traffic which has occurred in previous months this year. Reports that the Santa Fe has under consideration the issue of a fresh batch of securities are positively denied.

For sick headache take Chamberlain's Cough and Liver Tablets and a quick cure is certain. For sale by all druggists.

WANTS BIRTHDAY PRESENT.

Queer Suit of a Woman Against Pullman Company Official.

Depositions will be taken at Chicago of several Chicago witnesses in the suit of Mrs. Francis D. Sullivan against Thomas H. Wickes, the vice president of the Pullman company. She charges that on the first visit Mr. Wickes made her a birthday present of 20,000 in stocks, but subsequently persuaded her to return them. It is for these she seeks to recover.

That Throbbing Headache Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by all druggists.

THIRTY FORGED TIME CHECKS.

High Officials of Frisco Get Into Serious Trouble.

It is reported that a large number of employees of the St. Louis & San Francisco railway, on the division between Oklahoma City and Sapulpa, will be dismissed soon and that there may be criminal prosecutions following an investigation now being made. Thirty time checks, signed with fictitious names, have lately been cashed at various points on the line. It is reported that as one result of the investigation a high division official already has been dismissed.

Acute Rheumatism.

Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Osear Olson, Gibson City, Illinois, writes, Feb. 15, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." 25c. 50c. \$1.00. Sold by J. H. O'Reilly & Co.

SIX PAIRS OF DRIVERS.

"Biggest Locomotive" Now Being Built for Baltimore & Ohio.

Engine 2400, built at the Schenectady locomotive works for the Baltimore & Ohio, and which is to be exhibited at the World's fair, is the largest locomotive in the world.

It is estimated that it will be 100 per cent more powerful than any locomotive ever built. The design is similar to that of the Mallet compound.

There are six pairs of driving wheels, three pairs are under the forward end of the boiler and the other three beneath the fire box.

The drivers are small, being but 56 inches in diameter. The total weight of the locomotive and tender is 560,000 pounds.

HAWKINS SAYS THE DAY OF THE STRIKER IS OVER.

And That Men Who Want to Make a Living in Alamogordo Can Now Do So.

There is apparently no new developments in the strike situation at Alamogordo.

In speaking of the situation Attorney W. A. Hawkins, of the Northeastern, says:

"It is now apparent that there will be very little, if any more, trouble. It is to be hoped that the rule of the striker in our community is over and that decent men who want to make a living for their families will not be further imposed upon by the rabid and boomer element, which has been taking its flight from our community for the last few days."

IMPORTANT CHANGE.

In Passenger Schedule on the Santa Fe Central Railway—Daylight Passenger Service Between Santa Fe and El Paso.

The Santa Fe Central Railway company will inaugurate effective June 5, 1904, new passenger service between Santa Fe and El Paso, in connection with the El Paso-Northeastern System. This new service will be daily and close connection will be made at Torrance, New Mexico, with the El Paso-Northeastern System trains to and from El Paso and all points south, east and west of El Paso.

Santa Fe Central train No. 1 will leave Santa Fe daily at 6 o'clock a. m., and arrive at Torrance, 10:25 a. m., leave Torrance at 10:30 a. m., and arrive at El Paso at 6 p. m. El Paso-Northeastern System train No. 4 will depart from El Paso 7:25 a. m., arrive at Torrance at 3:25 p. m. Santa Fe Central train No. 2 will leave Torrance at 3:30 p. m., arrive at Santa Fe at 8 p. m. Connection will also be made at Torrance with all trains to and from the east via the El Paso-Northeastern and Rock Island systems. All El Paso-Northeastern System trains will carry Pullman standard and tourist sleeper, also chair cars. These trains will also carry Rock Island System dining cars in which all meals will be served.

Attention is also called to the fact

that the El Paso-Northeastern and Rock Island systems are paying special attention to World's Fair travel. It has been arranged for their trains to arrive in St. Louis in the morning and their leave the line from the southwest which has its own station at the World's Fair grounds, and passengers traveling via this line may leave the train at the World's Fair gates and avoid the crowds and delay at the Union Station.

For passenger rates and other information address or call on B. W. Robbins, general passenger agent, Santa Fe Central railway, Santa Fe, New Mexico.

MUST GIVE BOND IN MEXICO.

Relatives of T. J. Lee, Imprisoned in Mexican Jail, Are to Furnish Means of Release.

According to letters received from Mexico the American consul is absent from the City of Mexico, the charge d'affaires can do nothing and the only way to effect a speedy release for T. J. Lee, the Denver engineer imprisoned there for having been in a wreck, is to furnish bonds, says the Denver Republican. Police Captain Lee said that he intended taking immediate measures for furnishing a bond through some bonding company with Mexican correspondence.

The amount of bond required will be about \$5,000.

Yesterday afternoon the captain received a letter from Gov. Peabody stating that the consul was gone and that the quickest way to secure Engineer Lee's release would be by means of a bond, as the Mexican red tape is even worse than in other places.

Much solitude is felt by the Lee family here as to the conditions under which T. J. Lee is living in prison. No direct news has been received from him for a long time. His wife fears the worst and unless something definite can be accomplished at once it is probable that some of the family will go to Mexico and remain until after the trial in order to see that it is a fair one.

WINSLOW RAILROAD NOTES.

From the Mail.

Fireman Lancaster came in from Sellsman where he has been working on the water run.

Conductor Eastman, with train 32, broke a journal near Hardy and laid out the passenger train about two hours.

Proctor's gang went into Albuquerque where they will replace the outfit cars used by the non-union machinists with tents.

Water Service Foreman H. Johnson went into Albuquerque last week for several days. It is stated that Harry is becoming generally popular with the young ladies of the Harvey house at that point.

The co-workers of A. W. Mayes, night chief dispatcher in the local office have purchased an exquisite silver tea set for Mr. and Mrs. Mayes and the same will be presented to the newly married couple on their arrival from California.

Fireman Davies, better known as "Happy Holligan," met with quite an accident at Ash Fork last week while taking oil on one of the big engines. His lantern exploded the gas that had accumulated in the discharge pipe and in the slight explosion that followed Happy's face was quite badly burned.

CANNOT USE TOWER.

San Bernardino Strikers Prohibited by Court at Los Angeles.

Deputy United States marshal Trayner came up from Los Angeles, bringing with him subpoenas for eight of the strikers and boiler-makers, says a San Bernardino dispatch. The papers were served that evening. Secretary Smith, of the Santa Fe machinists, and President Wolf, of the San Bernardino lodge, being among those favored.

The subpoenas instruct the men to be present in the United States Los Angeles court at 10 o'clock June 17, the day set for the injunction proceedings and "show cause and prove their right to erect a tower overlooking the Santa Fe yards, from which they may view the shops by means of a telescope and photograph the enclosure with cameras."

All this the men have been doing from their aerial platform in West Third street and the company promises to do its best to have the strikers enjoined from such moves in the permanent injunction which it hopes to get before Judge Weiborn.

The men on their part state that the entire matter is in the hands of their attorneys. They say they have obeyed the present injunction in that they have not set foot on the company's property. The ground upon which their tower stands belongs to private parties and has been leased to them.

A copy of the order received by the men was at once sent to their Los Angeles attorneys who will advise the strikers at an early date.

Transferred to Winslow.

This week Manager J. G. Maxwell, of the Holmes Supply company turned over the local office to W. S. Fields formerly of Isleta, N. M., says the Winslow Mail.

Mr. Maxwell goes to Fresno to take the management of the Holmes Supply company at that point. We regret to see Mr. Maxwell leave Winslow as he has been here for the past three years and is one of the best business men of the town, and socially is of a genial disposition, and is widely known on the Albuquerque division. Mr. Fields has also been in the employ of the Holmes Supply company for years and we bespeak the same popularity for him as attended Mr. Maxwell.

By reference to official news, published elsewhere, it will be seen that a new railway company, to be known as the San Antonio & Carthage Railway company, has just filed articles of incorporation. The road is a Socorro county enterprise.

AMERICAN WOMEN Are Not a Race of Invalids

THE American woman is the finest specimen of femininity in the world. Before our War of the Rebellion women were spoken of as delicate, to-day the health of our women is growing better instead of worse. The poorly developed woman is the exception nowadays rather than the rule. Watch the army of shop-girls going to work any day and notice what a good healthy looking lot they are usually. Attending parties, dances, wearing hygienic clothing and eating indigestible foods does much more harm to the health of the young American girl than does a reasonable amount of study. Health and physical exercise is the fashion to-day. Good out-door exercise in the pure air and sunshine hurts no one unless they are too delicate to stand the fatigue of excessive exercise. For the business man or woman, the housewife, the young maiden at school, Dr. R. V. Pierce has this to say: "The importance of womanly health is being daily better understood. Women should get all the sunshine and good air possible; do not lace tightly; practice breathing through the nose; do not stay indoors any longer than you can help; take any kind of light exercise for the number of the body that the time at your disposal will permit." For the man or woman whose constitution is run-

down, whose blood is out of order, who perhaps is suffering from indigestion, nervous exhaustion, and the blues, or whose system has gotten so stagnated that catarrh of the lungs has made its appearance, a tonic should be taken that will increase the assimilation of the plasma from the food, stimulate the circulation of the blood and throw off the poisons lurking in the system. Nothing perhaps has stood the test of public approval so long or sold so largely on the American continent as a tonic and blood builder than Dr. Pierce's Golden Medical Discovery. This is not only due to the valuable extracts from medicinal herbs and roots which it contains, but also to the fact that it contains no alcohol or other poisons to harm the system. It always acts for the good of the system. By way of example, take the case of a well-known young woman, of Appleton, Wisconsin, whose picture is above, Mrs. Gertrude Vandenberg, of No. 601 College Avenue, who says: "I had always enjoyed the best of health until last summer when I had scarlet fever, the effects of which seemed to remain, causing defective hearing, my strength did not return, and I felt acute temple pains, and exhaustion, also I would perspire freely if I made the slightest physical exertion. The doctor did everything he could to drive the

humor out of my system, but was unable to do me any good. I began to take Dr. Pierce's Golden Medical Discovery, and soon found it was helping me slowly but surely. I took it for twelve weeks when I was restored to perfect health. My appetite is excellent, my complexion much improved, and I am able to resume to my duties with renewed vigor and strength. I heartily recommend your 'Golden Medical Discovery' as a wonderful 'strengthening-giver'."

For people whose run-down, nervous system, suffering from occasional indigestion, dyspepsia, headaches, night sweats, whose machinery has become worn, it becomes necessary to turn to some tonic or strengthening which will help them to get on their feet and put the body into its proper condition. For centuries it has been known that nature's most valuable health giving agents are roots, herbs, barks and berries, and some thirty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., found a combination of roots, herbs and barks, taken from the fields and woods and made into an alterative extract, called Dr. Pierce's Golden Medical Discovery, produced results in the system which were satisfactory in almost every case of blood disorder and stomach trouble.

NEW MEXICO EXHIBIT AT ST. LOUIS

IT IS PARTICULARLY RICH IN THE DISPLAY OF MEMENTOS AND RELICS.

The St. Louis Republic, in describing the New Mexico exhibit at the Louisiana Purchase exposition at St. Louis, Missouri, says:

One curious antique which will be seen in the New Mexico building is a French map of the United States so old that Santa Fe and St. Augustine are the only cities shown in the entire country. According to common belief at that time the Gulf of California and Puget Sound met and cut a large area of the western part of the continent of North America off from the mainland. The map was executed upon this theory, and what is now the United States is described as "two great islands."

The old map was discovered in Paris by former Governor L. Bradford Prince of New Mexico.

Many solid silver plates and other articles of tableware made in Spain centuries ago and long treasured as heirlooms by the Otero family have been sent by Mrs. Otero, wife of the governor of New Mexico, to be shown in the state building. Silver plate and gold ornaments hammered from the unalloyed metal by the Aztecs of Mexico centuries before the conquest of that country by Spain will also be found in the collection of antiques.

One particularly handsome Aztec relic is a silver drinking mug, which is said to have been made in Chihuahua 250 years ago. Another exhibit of silverware made by the aborigines, in a mug, bowl and plate hammered out of pure silver in Durango.

Aside from the tableware and ornaments many historic documents will be exhibited. Among them will be the original proclamation of General Stephen S. Kearney, U. S. army, when he took possession of the territory in the name of the United States in 1846.

Modern exhibits will also be made, and among them will be a table of gold and silver filigree work worth \$4,000. The table was made of gold and silver mined and smelted in New Mexico. The top is ornamented by a picture of a Pueblo village, the state capital at Santa Fe, San Miguel church and the governor's palace at the four corners, and in the center is the coat of arms of New Mexico. The pictures are formed of the filigree work, which is made of finely spun wire. The table is richly inlaid with precious stones from the mines of New Mexico, including turquoise and garnets.

Among the modern exhibits is the coat that Aguinaldo wore when he was captured by General Frederick Funston, and many other Filipino relics which were sent to Mrs. Otero by an army officer who was present when Aguinaldo was captured.

STARVING APACHES RESCUED

ONCE WANDERED OFF FROM MAIN TRIBE INTO MEXICO AND JUST NOW BEING BROUGHT BACK HOME.

A party of forty Indians will arrive over the Mexican Central this evening and leave over the Rock Island for the Mesquero Indian reservation in New Mexico, where they will locate, says the El Paso Herald. The party is headed by Father Migon, who has been laboring among them for a long time. These Indians belong to what is known as the La Pan tribe of Apaches and their movement through El Paso will recall to the old settlers here some of the ancient history of these Indians.

These Indians, about forty in number, were originally a part of the band of bloodthirsty Apaches, headed by Geronimo. Geronimo, it will be remembered, was captured during the summer of 1886 by a part of the command then under Gen. Nelson A. Miles and was brought back through El Paso by Maj. Lawton, later Gen. Lawton, who met death in the Philippines. This bunch of Indians, however, had become detached from the original band while on one of the raids in Mexico and they located on a tract of land in the vicinity of Chihuahua, where they have been eking out a miserable existence ever since.

Some time ago the Mexican government took their lands away from them and since that time they have been living as paupers. When their lands were taken away Father Migon, in order to help them out, took steps to have them transferred to the Apache reservation at Mesquero, and their movement there now is a result of his untiring efforts in their behalf.

OLD LIBERTY OFF FOR ST. LOUIS

Philadelphia, Pa., June 2.—Very largely in response to the patriotic appeal of the 75,000 school children of the city of St. Louis, the famous old Liberty bell, which proclaimed "Liberty Throughout All the Land Unto All the Inhabitants Thereof," will leave Philadelphia tonight for St. Louis where it will be exhibited in the Pennsylvania building at the Louisiana Purchase Exposition.

The historic relic will journey on a special car and during the entire period of its absence from the city it will be under the watchful eye of a squad of Quaker City policemen.

A round about route will be taken to St. Louis in order to give the people of a large section of the country an opportunity to see the bell. It was found impossible to accede to all the requests, but the itinerary as finally arranged provides for brief stops at a large number of places. Among the cities to be visited are Elmira, Rochester, Buffalo, Erie, Ash-tabula, Cleveland, Sandusky and Toledo. From Chicago the route extends as far into the northwest as Minneapolis and St. Paul, from which points the journey to St. Louis will be resumed by way of Dubuque, Rock Island, Peoria and Springfield.

The present trip of the Liberty bell is the seventh time it has been out of Independence Hall since it was first installed there in 1753. The first time it was removed was in 1777, when it was taken to Allentown, Pa., to prevent it falling into the hands of the British. There it remained until the British evacuated Philadelphia. All of its other journeys have been for exhibition purposes, and included trips to New Orleans in 1880, to Chicago in 1893, to Atlanta in 1895, to Charleston in 1902, and to Boston in 1903.

Court Officials.

Court officials from all over the territory are flocking into Santa Fe today to be in attendance at the special meeting of the supreme court of New Mexico which meets at the capital tomorrow for the purpose of redistricting the territory and increasing the judicial districts from five to six. Judge W. H. Pope, of the Fifth district, Judge F. W. Parker of the Third district and Judge Ed. A. Mann, who was appointed to preside in the new district, arrived from the south this morning on an early train and left on delayed train No. 2, for the capital. Judge B. S. Baker of the Second district, and United States Marshal C. M. Forsaker joined the party here.

Bad Boys Better Beware.

There is a gang of youngsters who congregate in the evenings on the Highlands near Arco and Railroad avenues and throw stones at people passing in hackries and on horseback. If this devilment is not stopped, the police will take a hand and some parent will have to pay a fine. So many misadventures are being committed by bad boys that the city will have to institute a juvenile court to punish the rascals.

N. J. Houston, manager of the Browns base ball club, and Roy McDonald, the semi professional catcher, will go to El Paso tomorrow night, so as to cheer the Browns on to victory in the game Sunday afternoon.

CIVIL SERVICE SITUATIONS

The United States civil service commission announces an examination on June 15, 1904, to secure eligibles from which to make certification in fill five vacancies in the position of laboratory assistant (male) in the national bureau of standards at \$900 per annum each, and other similar vacancies that may occur in that bureau.

The United States civil service commission announces an examination on June 15, 1904, to secure eligibles from which to make certification in fill existing vacancies and vacancies as they may occur in the position of teacher in the Philippine service. The salary of this position ranges from \$900 to \$1,200 per annum, and will be based upon the experience and the relative standing in the examination. Those appointed will be eligible for promotion to the higher grades of the service, ranging from \$900 to \$2,000 for teachers, and from \$1,500 to \$2,500 for division superintendents. As the commission has experienced considerable difficulty in securing eligibles for this position, qualified persons are urged to enter the examination. Women will not be admitted to this examination, except that those of the following class will be permitted to take the examination, and if they pass, will be preferred in appointments through whom examination is allowed is also selected for appointment. Wives of teachers appointed to the Philippine service; women betrothed to teachers in that service; women who are immediate relatives of teachers appointed to or already in that service; or women who are betrothed to men who are examined at the same time. Applicants of the classes indicated should show in their applications the particular class to which they belong.

The United States civil service commission announces an examination on June 22, 1904, to secure eligibles from which to make certification to fill several vacancies in the position of book-keeper in the Philippine service at \$1,200 per annum, and other similar vacancies as they may occur in that service. As the commission has experienced considerable difficulty in securing eligibles for this position, qualified persons are urged to enter the examination. Applicants should apply either to the United States civil service commission, Washington, D. C., or to the secretary of the board of examiners for application forms. No application will be accepted unless properly executed and filed with the commission at Washington prior to the hour of closing business on June 15 and 22, 1904. In applying for these examinations the exact title should be used in the application.

MISSOURI PACIFIC TELEGRAPHS FAIL TO GET ADVANCE IN WAGES. Some time since a committee representing the telegraphers employed on the Missouri Pacific system submitted to the management at headquarters at St. Louis an application for a general increase in wages and readjustment of hours, etc. The management announced after due consideration of the matter that it could not concede the demands made by the committee and the whole subject was then referred to the men for a vote on the strike proposition. The canvass of the system is now complete and it is understood that the result will be made known soon, when the committee will again seek a conference with the management. This will be the last meeting, and it is said that every effort to avoid a strike will be made. Manager Cotter, who was out on the Central branch on a tour of inspection, returned to headquarters yesterday. Vice President and General Manager Russell Harding is at headquarters and the situation will be finally discussed.

Similar requests for advances in the wage scale have been made by the telegraphers of the Missouri, Kansas & Texas and the Frisco systems, but no action has yet been taken by the management on the applications in either case.

WINNER OF ENGLISH DERBY.

London, June 1.—The race for the derby stakes of 5,000 sovereigns, day, resulted in N. U. N. H. H. H. today, was won by St. Aster.

EMPHATIC TALK.

The Kind That Carries Conviction to Every Albuquerque Reader.

Conviction must follow such emphatic proof as is given here. The testimony of Albuquerque residents should satisfy the most skeptical. Here is an Albuquerque case. Read it and see if doubt can exist in the face of this evidence.

W. R. Tripp, engineer at The Hotel Alvarado, residence 51 South Broadway says: "If backache had been my only symptom of kidney trouble my case would probably have been very simple, but when there was added to it trouble with the kidney secretions, the application did not respond to medicine as readily as I expected. About once every year I had these attacks and the use of Doan's Kidney Pills, procured at the Alvarado pharmacy, cured me over one which was only a successor of similar procedure. For six months I have had immunity from the annoyance and if Doan's Kidney Pills can be depended upon to act as they did when they first came to my notice I know what to do should the attack recur in the future."

For sale by all dealers. Price 25 cents. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

LEVI STRAUSS & CO'S
COPPER RIVETED OVERALLS
For men who toil
